

Concrete Chess Table seats 4

This concrete set consists of a bottom plate with a chess table and four seats. Like all other tables and benches of Redlynch, this table is moulded entirely in one piece of high-quality concrete. The bottom plate measures 149 x 149 cm. In case you want to place the table in a park, the plate can be levelled with the grass so that the upper side of the concrete plate matches the cutting height. Placing is included in the price. Preliminary work must be finished before delivery.

This concrete Chess Table is made of natural concrete or Anthracite-Concrete. The “Concrete-look” is an imposing picture.

The 64 fields (32 white and 32 black) are made of marble and hard granite rock and integrated into the concrete.
The table is weatherproof.
